Final project proposal

INTO THE UNKNOWN

A personal portfolio framed as a deep space mission log, drawn by hand, built to carry two years of work out past the edge of what I already know how to do.

PILOT	STUDENT NUMBER	MODULE	DOCUMENT
Chitambala "Chita" Sikazwe	u25173384	VIO 202, Theme 4	Final Proposal & Submission

Overall plan

My portfolio is a mission log, a signal sent home from a ship heading further out than anyone on board has gone before. Each of its six screens is its own universe, and my projects sit along one dotted flight path as worlds the ship finds on the way. Kingdom of Rot breaks into the feed as a transmission nobody expected, and the Appleboy infographic turns up as a classified file washed up along the route.

Creative approach

One idea runs through everything: heading into the unknown. A console style menu lets visitors pick a destination directly, and every jump between screens is a hyperspeed burst that lands in a new universe. Since the first proposal the look has moved from clean sci-fi to hand-drawn: wobbly pen lines, pencil hatching, grain and marker shading, so the site feels sketched in a ship's notebook rather than rendered.

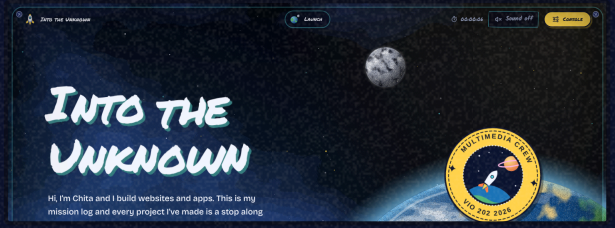

NAVIGATION MAP

Screen sequence & interactivity, as built

Six screens, travelled in order like waypoints on a single flight path. The Console menu, the flight rail along the bottom and direct links let a visitor jump to any screen or sub-section at once.

SCREEN 01

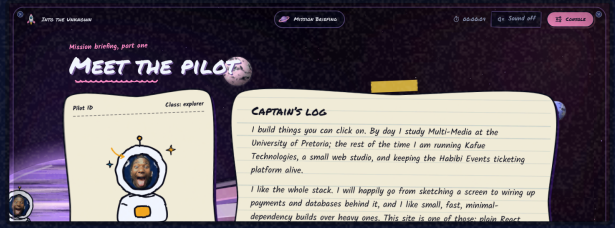

Launch

Home orbit. A zero-gravity title, a three line welcome, a mission patch and a “Begin transmission” button. The Console menu lists every screen, with sub-menus and the links to the comic and infographic.

SCREEN 02

Mission Briefing

About me, skills and contact. A pilot ID card that flips over, a captain’s log, skill bars that colour in as they scroll into view, and a contact form whose fields glow when focused, beside my socials.

SCREEN 03

Waypoints

The project showcase as a star map. Habibi Events, LaundryTrack, CV Weapon Detection and FNF sit on a dotted flight path. Hovering pulses a planet, clicking opens its panel with blurb, screenshots and live link.

SCREEN 04

Signal Detected

Link into the Vertical Narrative. The screen glitches and turns signal amber. “Tune the receiver” decodes the static into a message with an audio sting, then reveals the link to Kingdom of Rot.

SCREEN 05

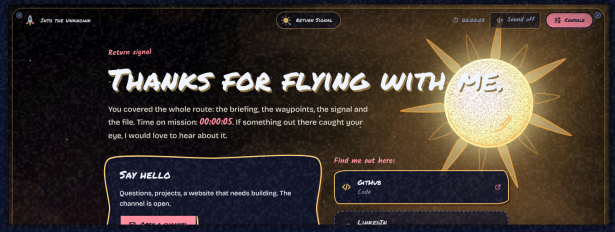

Recovered File

Link into the Infographic. A classified dossier card for Appleboy with blacked-out notes. “Declassify” strips the redactions and reveals the link out to the full infographic.

SCREEN 06

Return Signal

A thank-you, the time spent on the mission, a button that opens the contact channel, my social links and a “Fly it again” button back to Launch.

Hyperspeed jump. Every screen change warps through the starfield and lands in a new universe with its own planets.

Signs of life. Content floats in on scroll, background planets drift with the mouse and scroll, cards breathe, and the pilot floats across every screen on a spacewalk.

Sound. Ambient hum, hover blips, a jump whoosh and the transmission sting, switched on from the top bar.

Mobile. Every screen reflows for phones, and the star map becomes a list of planets.

STYLE INSPIRATION

References, colour & type

Qase
qase.io

Deep navy backgrounds with soft glowing accents make a fairly plain product feel technical without clutter. The same restraint is used for my HUD panels.

Cosmos Studio
lovable.dev · dark mode roundup

A studio site that frames its homepage as a spacecraft simulation with a "select your destination" prompt. Close to what I wanted for Waypoints.

Behance, Space Website Collection
behance.net

How different studios handle nebula gradients and grain without it reading as a stock background pasted behind the content.

NASA
nasa.gov

A reminder that a space themed interface still has to be legible: clear labels and strong contrast over imagery rather than mood alone.

The hand-drawn direction

- Seeded wobbly pen lines and double-pass outlines
- Pencil hatching and ink stipple on planet shadows
- Grain and chalk speckle on every surface

- Flat marker shading instead of smooth gradients
- Posterised nebula clouds and a paper grain overlay
- Uneven, hand-cut corners on every panel and button

Colour swatches

Void Black `#05070D` · background	**Deep Space Navy** `#0B1330` · panels	**Console Blue** `#0E1638` · cards	**Paper** `#F3ECD8` · notes, cards
Ion Cyan `#5CE1E6` · Launch	**Nebula Violet** `#C29BFF` · Briefing	**Waypoint Mint** `#6BF2C0` · Waypoints	**Signal Amber** `#FF8A4C` · Signal
Moss Green `#B7F04A` · File	**Home Gold** `#FFD27A` · Return	**Starlight White** `#F4F6FF` · text	**Drift Grey** `#9AA5C6` · labels

Typography

HEADINGS & HUD LABELS

INTO THE UNKNOWN

Permanent Marker. A thick, inky marker face for titles, waypoint names and buttons.

MARGIN NOTES & HANDWRITING

start with this one!

Kalam. Handwriting for labels, notes and the captain's log.

BODY COPY

Every project sits along the route as something the ship finds on the way out.

Bricolage Grotesque. A friendly sans for long reading where a handwriting face would tire the eye.

Changed from the Week 1 proposal (Orbitron and Exo 2) when the art direction moved from polished sci-fi to hand-drawn.

MISSION SCHEDULE

Weeks 2 to 6, mapped against the official Theme 4 calendar

DEADLINE

Final submission midnight, Thursday 29 October, on ClickUp, as the folder **Portfolio_Chitambala Sikazwe_u25173384.**

WEEK 2 — 28 Sept – 4 Oct

BUILD THE SHELL

- ✓ Create React App project and folder structure
- ✓ Starfield with three depth layers and the hyperspeed jump
- ✓ HUD shell: top bar, flight rail, console menu with sub-menus
- ✓ Launch screen with the main menu and welcome line
- ✓ Working links to the Vertical Narrative and Infographic

WEEK 3 — 5 – 9 Oct

FIRST WAYPOINTS

- ✓ Mission Briefing: pilot ID, skills readout, contact form
- ✓ Waypoints star map and flight path
- ✓ Habibi Events and LaundryTrack with screenshots, blurb and live link
- ✓ Hand-drawn art direction applied across the site
- ○ Client check-in and adjustments after feedback

WEEK 4 — 12 – 16 Oct

TEST WEEK, NO LECTURE

- ✓ CV Weapon Detection and FNF waypoints, same format as Week 3
- ✓ Sound layer: ambient hum, hover blips, jump whoosh, transmission sting
- ✓ First full pass on mobile layout

WEEK 5 — 19 – 23 Oct

SIGNS OF LIFE

- ✓ Signal Detected, Recovered File and Return Signal screens
- ✓ Glitch transition and the dossier card
- ✓ Scroll based signs of life in every section
- ✓ Texture pass and smoother transitions between screens
- ✓ Spelling and grammar pass across all text

WEEK 6 — 26 – 29 Oct

FINAL APPROACH

- ✓ Exam briefing and revision test on 26 October
- ✓ Final cross browser and mobile test
- ✓ Single submission PDF: this proposal and the signed plagiarism form
- ✓ Package as Portfolio_Chitambala Sikazwe_u25173384 and submit to ClickUp

MISSION END

SIGNAL SENT HOME

Six screens, two linked deliverables, four waypoints and a sound layer, delivered as one continuous flight from launch to return signal.

Linked deliverables

Vertical Narrative: viocomic.netlify.app

Infographic: celadon-paprenjak-7795e2.netlify.app

Waypoints

Habibi Events: habibievents.co.za

LaundryTrack: taulaundrotrack.netlify.app

FNF: foodandnutritionfoundation.com

Built with

React (Create React App), plain CSS, SVG, canvas and the Web Audio API. Contact form through Netlify Forms. Fonts: Permanent Marker, Kalam and Bricolage Grotesque.

Addendum D: Declaration of originality (plagiarism form)

The School of the Arts places specific emphasis on integrity and ethical behaviour with regard to the preparation of all theoretical and practical work to be submitted for academic evaluation. Although academic personnel will provide you with information regarding reference techniques as well as ways to avoid plagiarism, you also have a responsibility to fulfil in this regard. Should you at any time feel unsure about the requirements, you must consult the lecturer concerned before you submit any work.

You are guilty of plagiarism if you copy something, in part or whole, from another person's work without acknowledging the source and pass it off as your own. In effect, you are stealing something that belongs to someone else. This is not only the case when you copy work directly but also when you submit someone else's work in a slightly altered form without acknowledging it. You are not allowed to use work previously produced by another student. You are also not allowed to let anybody copy your work with the intention of passing it off as his/her work.

Students who are guilty of plagiarism will forfeit all credit for the work concerned. In addition, the matter can also be referred to the Committee for Discipline (Students) for a ruling to be made. Plagiarism is considered a serious violation of the University's regulations and may lead to suspension from the University.

For the period that you are a student in the School of the Arts, the under-mentioned declaration must accompany all practical work to be submitted. **No project will be accepted unless the declaration has been completed and submitted.**

I (full names) Chitambala Sikazwe
Student number u25173384
Subject and project number VIO Final Deliverable

Declaration:

1. I understand what plagiarism entails and am aware of the University's policy in this regard.
2. I declare that this VIO final deliverable [description of project] is my own, original work. Where someone else's work was used (from any source), referenced and/or appropriated, acknowledgement is provided below:

   Fonts: Permanent Marker, Kalam and Bricolage Grotesque (Google Fonts, open licence).
   Built with React (Create React App); all code, layout and artwork written/drawn by me.
   Space and planet art is drawn in code (SVG/canvas); the comic and infographic are my own projects.
   Screenshots shown are of my own projects (Habibi Events, LaundryTrack, FNF, CV detection).
   AI assistance: an AI coding assistant helped me write and debug code; I directed and checked it.
   Design references (Qase, Cosmos Studio, Behance, NASA) were for inspiration only, not copied.

3. I did not make use of another student's previous work and submitted it as my own.
4. I did not allow and will not allow anyone to copy my work with the intention of presenting it as his or her own work.
